

K-LOVE, heard locally on 88.7, 96.5, 89.3, serves families and young children so well in this area. There is never anything that we don't want youngsters to hear, never anything but encouragement, positive, uplifting music and messages urging us all to be good citizens and good students and good family members. This is a good thing for all of us locally, and if K-LOVE were displaced by LPFM, it would be a terrible loss to all of us who listen to K-LOVE. K-LOVE is family friendly programming, supports wholesome values--please help us preserve this positive input to all the K-love communities. Thank you. Cyril Hunkler
